KEY ACHIEVEMENTS

Full-Stack Developer
<https://github.com/Sandilenkosie>

Self-driven projects | 02/2017 - Present

- Developed proficiency in JavaScript (and frameworks), HTML, and CSS to create dynamic, responsive user interfaces.
- Applied front-end technologies to build and maintain interactive web applications.
- Gained expertise in Microsoft Office 365 for collaboration and presentations.
- Acquired skills in .NET, Python, Java, and SQL to design, build, and optimize server-side applications and databases.
- Gained hands-on experience with Microsoft Azure for cloud-based deployment and infrastructure mana

Experience

Web Developer

Freelance | 2019 - Present

Built modern, responsive websites using Django, TailwindCSS, and JavaScript.

Data Analyst

Phuthuma Technologies | Feb 2021 - May 2021

Analyze and interpret complex datasets to provide actionable insights that drive business decisions. I utilize statistical tools and data visualization techniques to uncover trends, improve processes, and support strategic planning.

Salesforce Developer

Quarphix Company | Aug 2024 – Present

As a Salesforce Developer, I developed Lightning Web Components, Flows, and API integrations to enhance user experience and streamline business processes. I also utilized SOQL for querying Salesforce data and created Apex trigger classes to automate workflows and maintain data integrity.
